## **Trump Unpopular, but Does Not Translate into Democratic Votes**

**Vancouver, B.C.** - Eastern Research's new national poll shows Trump remains the most unpopular president ever inaugurated since the invention of national polls. Three weeks into the administration, only 48% of the eligible voters say they are satisfied with the performance of Donald J. Trump as president, as compared to 52% who disapprove.

**Voters, however, do not translate Trump's unpopularity with votes for the Democratic candidate.** However, by a 47 - 25 margin, voters prefer Donald Trump over Democratic frontrunner Elizabeth Warren, with 28% of voters remaining undecided.

Among men, a bare majority (52-48) approves Trump's performance, while a significant majority (57-43) of women disapprove his performance. Among the youth, overwhelming majorities of the population dislike Trump, but only one age group (18-24 years olds) prefer Warren over Trump for president.

Eastern Research surveyed 394 adults from across the country on February 6th and 7th. The margin of error is plus or minus 4.3%. The sample was randomly selected from a set of population using Google-ads enabled services. The sample was weighted to reflect American demographics, while crosstabs are unweighted.
